EXAMINER'S COMMENT

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 2, 2005 has been entered.

Election/Restrictions

2. Claim 58 is directed to an allowable product, since the species Arg660Lys is found allowable. Under Markush practice, the remaining species are hereby rejoined and were fully examined for patentability under 37 CFR 1.104.

Since all pending species and pending claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on July 23, 2002 is hereby withdrawn.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance: The claimed invention is drawn to Taq polymerase mutants with particular substitutions in the Taq polymerase sequence. The specification makes it clear what Taq polymerase is at page 6, noting that "Figure 1 shows the nucleotide and amino acid sequence of Taq DNA polymerase I (SEQ ID NOS:1 and 2, respectively)". The specification and figure 2 also make it clear that the mutations are found in SEQ ID NO: 2 at the specified

locations. The closest prior art reference, Suzuki et al, was removed with a 1.132 declaration. There is no other prior art which teaches or suggests any of the particular changes in the Taq polymerase sequence. A terminal disclaimer was filed to overcome the related patent, U.S. Patent 6,395,524, which claimed similar subject matter. Therefore, the claims are novel and unobvious over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance." Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Fredman whose telephone number is (571)272-0742. The examiner can normally be reached on 6:30-3:00. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Gary Benzion can be reached on (571)272-0782.
